Re: Endorsement of Lower Eagle Rock Project

Dear Mr. Kilbridge and Mr. Mansour:

On behalf of West Bay Housing Corporation, I would like to convey our support for Habitat for Humanity's Lower Eagle Rock Project in Tiburon.

West Bay Housing is a non-profit organization that provides affordable housing to underserved populations, with an emphasis on people with developmental disabilities. Our organization is primarily focused in San Francisco, San Mateo and Marin Counties. We have witnessed first-hand the tremendous positive benefit that projects like this can have for its residents, and the community as a whole.

Marin County is in desperate need of more projects like Lower Eagle Rock. The County's workforce is becoming more and more unable to afford the exorbitant cost of housing. This causes a poor quality of life for many of the County's less-affluent, environmentally and economically damaging traffic congestion, and a community that isn't welcoming to many of its most important contributors.

The Lower Eagle Rock Project addresses the need for more affordable housing, and is designed in a way that exemplifies smart development: environmentally sensitive, near transportation, close to workplaces and designed with the needs of the community in mind. Further, as an organization that was created to address the needs of developmentally disabled persons, we commend your efforts to make these homes accessible for those with mobility limitations.

West Bay Housing Corporation strongly supports the Lower Eagle Rock Project.

Sincerely,

Vera R. Ciammetti
Executive Director

West Bay Housing is a non-profit corporation providing permanent and affordable housing and advocating for people with developmental disabilities.
